

January 2024,

As the second half of the school year begins, we are excited to welcome our ACEA Eagle family back into the building. Our priorities are promoting educational achievement while providing for the safety of our students, staff, and parents.

Below you will find an outline of the current Covid-19 plans for the 2023-24 school year for ACEA. Plans are subject to change in order to provide for the health and safety our students and staff:

- We are emphasizing in-person instruction this year as we look to accelerate learning lost from last year's Covid related absences.
- Virtual learning is provided on a case-by-case basis, according to the needs of individual students.
- Every student is health screened for a fever, upon entering the building.
- Masks are required on school buses—per CDC.
- Vaccinations for staff and students over the age of 12 are recommended by the CDC, but not required at ACEA, at this time.
- Masks are recommended by the CDC, but not required at ACEA, at this time.
- Buildings and classrooms will still be disinfected throughout the day.
- Hand sanitizer will still be available throughout the building.
- Proper hand washing/sneezing etiquette will still be emphasized.
- Hand washing will be encouraged.

We are very excited to have students back in the building and look forward to having a happy, safe, and productive 2023-24 school year.

Yours Educationally,
Steve Newkirk
Principal, ACEA
